Background

About Te Wāhi Tiaki Tātou

The Porirua Locality Prototype Programme was renamed “Te Wāhi Tiaki Tātou” in February 2023, to better reflect the intent of the programme and its unique focus on the Porirua community.

Te Wāhi Tiaki Tātou is led by Te Rūnanga o Toa Rangatira, on behalf of Ngāti Toa Rangatira, and together with its partners, Ora Toa PHO, Tū Ora Compass Health, and Te Whatu Ora (Health New Zealand).

Porirua has been chosen as one of twelve locations across Aotearoa to prototype the localities model, which is a central component of the new health and disability system enabled by the [Pae Ora \(Healthy Futures\) Act 2022](#).

In the reformed system, a new approach to amplify health and well-being for communities is being adopted nationally. This is the Locality Approach.

Localities is a population health approach which focuses on listening to whānau and communities need to stay healthy and well and re-designing the health system to respond. Localities capture the specific needs and aspirations of communities in a locality plan.

The Porirua locality plan will detail hauora priorities and the aspirations of whānau and communities here in Porirua. The Porirua locality plan will help shape the services provided in Porirua. By July 2024, every community in Aotearoa will be part of a locality.

Achieving the objectives and successful delivery of the Porirua locality will require elevating the consumer/whānau voice and a coordinated and integrated Hauora Network to enable service providers to share their local insights and expertise about what can be improved or developed to respond to the consumer and whānau voice.
